

Zika

1

Don't panic, this is **NOT** as dangerous as its being made out to be. You are not helpless, keep reading!

2

1 out of 5 people who get bitten by an *Aedes aegypti* mosquito carrying the Zika virus won't show ANY symptoms! Ask yourself **WHY?** The answer is they have a **strong** enough Immune System to fight off the virus, its just that simple!

3

The very foundation of your Immune System is your white blood cells. If they lack the "**ammunition**" to fight off a viral infection, even the Zika virus, you have a **WEAK** Immune System. The good news is you can change that.

4

70+ years of research is being ignored by the conventional medical community, with thousands of successful treatments of many viral infections just like the Zika virus.

5

While most medications CAN'T be taken by pregnant women, this treatment has been shown to not only be safe, but is *extremely* beneficial as well to both Mother and Baby.

6

Occam's Razor says all things being equal, the simplest solution to any problem is usually the best.

7

Increasing your intake of pure Sodium Ascorbate crystals to 3,000 mg taken over a 12 hour period in juice like Orange juice or Apple juice gives the white blood cells the **ammunition** it needs to destroy the Zika virus. Its just that simple.
